U.S. Patent No. 5,544,488 7,812,245

Ecofan® Operating Instructions

The Ecofan is designed to be used on freestanding wood stoves with normal surface temperatures of 185°F - 650°F (85°C- 345°C). Temperatures above 650°F (345°C) may damage your Ecofan. Relocate your Ecofan to a cooler spot on your stove if the surface temperature exceeds 650°F (345°C). Good wood stove safety practice includes using a stove thermometer.

Safety

- Ensure the Ecofan handle is upright before placing on stove.
- While in use, the base of the Ecofan is very hot. **DO NOT TOUCH!** When repositioning your Ecofan always do so by the handle.

Getting the Most From Your Ecofan®

For optimum performance, placement on the stove's surface is critical. Be sure to position the Ecofan on the stove top so that cool air will be drawn over the cooling fins. The Ecofan should not be used directly in front of the stove pipe or at the front of the stove.

NOTE: Overheating will reduce the Ecofan's effectiveness and may damage the thermoelectric module and void the warranty. Remove the Ecofan from stove if temperature exceeds 650°F (345°C).

Motor Replacement Kits

Part # MRK-3

The Ecofan motor is designed for several seasons of use under normal operating conditions. If your fan spins much slower or the blade requires a push to start, a simple *motor replacement* may be the solution.

Please contact Calfire Spareline Ltd. at 01691 772922 or www.ecofan.co.uk.

Specifications

Model	810 UltraAir	812 AirMax
Airflow	125 CFM	175 CFM
Fuel Savings	14%	18%
Feel the Heat Faster*	31%	38%
Minimum Stove Top**	212°F (100°C)	185°F (85°C)
Blade Size	8" (206 mm)	9" (232 mm)

* Time taken to reach 68°F (20°C) from a cold start of 63°F (17°C) in a standard test environment. **UltraAir:** 76 minutes, **AirMax:** 68 minutes vs. **No fan:** 110 minutes

** Temperature required to produce 50 CFM airflow

UK WARRANTY

This product has a 2 year limited warranty.

This product is warranted to be free from any manufacturer's defects in material and workmanship for a period of 2 year from the date of purchase. Should this product become defective or fail to operate under normal conditions within this 2 year period, simply email ecofans@calfire.com advising which model you have; the serial number of your unit (found on the underside of the top casting); when and from where you purchased the item and details of the fault you are experiencing. If subsequently instructed to return the item then this should be sent, with a copy of the warranty notification email and a copy of the original invoice or cash register slip, to the UK Ecofan distributor Calfire Spareline Ltd at the following address:

Calfire Spareline Ltd., Gledrid, Chirk, Wrexham LL14 5DG

Please ensure that you provide full contact details including an email address and mobile phone number as these can be used by the carrier to advise when the returned parcel will be delivered to you. Goods should not be returned without first having advised Calfire of the problem being experienced and having received the instruction to do so.

Repair or replacement of the product in the UK shall be at the option of Calfire. This warranty covers household use only and does not cover commercial or industrial use.

This warranty does not cover abnormal wear or damages resulting from accident, misuse, abuse or, if applicable, breakage (when such breakage is not due to a manufacturing defect) and any other incidental or consequential damages.

This warranty is in lieu of any other expressed warranties. Should repair become necessary after the warranty period has expired then send your product to Calfire for a refurbishment quotation.

See www.ecofan.co.uk for details of the UK refurbishment program.

Keep the Box

We recommend that you keep the Ecofan box. You can use this for storage over the summer months and it will make it easier if you need to return the fan under warranty or for refurbishment.

Join the Ecofan Club

Visit www.ecofan.co.uk and click on The Ecofan Club. Here you will be able to read customers testimonials and view pictures of the Ecofan in use. There is a link provided for you to download your comments and pictures for inclusion on the site.
