OUTDOOR FURNITURE

ENJOY EVERY MOMENT

POWERED BY BOREK PARASOLS | OUTDOOR FURNITURE

ENYOI

We are proud to present the YOI collection for 2026. As the youngest brand within the Borek family, YOI continues to develop into an accessible design line that closely follows interior trends and gives outdoor living a relaxed, contemporary atmosphere. For 2026, one idea takes center stage: soft lines, natural materials, and outdoor furniture that slows down and enriches outdoor living.

The new collection revolves around rounded shapes, flowing contours, and harmonious color tones. Aluminum in shades such as Salix, Sienna, Olive, and Bronze forms the basis on which warm materials such as teak, rope, belt, and travertine come together. This combination gives YOI 2026 a balanced character in which comfort, tactility and design naturally reinforce each other.

The year also brings a series of new models that further expand the collection. Series such as Bosa, Forio, Hydra, Comillas, and Ishi demonstrate how modern design and natural textures can complement each other. Low dining gets extra attention with furniture that invites long, relaxed moments, while tables such as the extendable Maratea, which extends to a maximum of four meters, offer maximum flexibility for a variety of outdoor spaces.

Modular lounges, spacious daybeds, and carefully selected color palettes ensure that indoors and outdoors flow seamlessly into one another. This makes the collection a perfect fit with the YOI philosophy: making relaxed outdoor living accessible without compromising on style or quality.

It is a collection that brings peace, invites togetherness, and in which every detail has been designed with attention to comfort, durability and aesthetics.

On behalf of the entire team, I wish you a wonderful outdoor season full of relaxation and beautiful moments.

Kind regards,
Frank Bogaers

(DECORATIVE) CUSHIONS

WATER REPELLENT CUSHIONS BY YOI

The spunacrylic and olefin fabrics of the cushions in the Yoi collection are resistant to dirt and water, making raindrops no cause for concern. Additionally, accidentally spilling a glass of wine, soda, or a cup of coffee is also not a problem. You can easily remove it with a dry cloth. As the cushions are equipped with a zipper, you can wash the covers if necessary. Use a cold washing program for this purpose. For other washing instructions, refer to the care label inside the cushion.

MATERIALS & MAINTENANCE

BELT

Belt is a durable, innovative, and strong material that is ideal for weaving stylish garden furniture. It has a unique appearance and feels soft to the touch, making it not only comfortable but also creating a refined, modern look.

Thanks to the versatility of belt, various weaving techniques can be applied to powder-coated aluminum or galvanized steel. This results in contemporary designs with a distinctive and high-quality finish, in keeping with Yoi's serene style.

The belt used by Yoi consists of a strong nylon core with a durable olefin outer layer. This combination makes the material particularly suitable for all weather conditions. The belt is resistant to intense UV exposure, temperature fluctuations, moisture, mold, and chlorinated water. In addition, the material is colorfast, PVC-free, easy to clean, and very low maintenance. Perfect for a carefree and relaxed outdoor life.

MAINTENANCE ADVICE

The belt can be cleaned with a plastic cleaner (no aggressive abrasives). The belt can be protected with a plastic protector. This prevents dirt deposits and makes the rope belt easy to clean. This furniture can be left outside in the winter, but a breathing protective cover or store in a protected place does not do harm and prevents waste deposits.

MATERIALS & MAINTENANCE

ROPE

Rope is a durable, innovative, and strong material that excels in the weaving of high-quality outdoor furniture. Its refined, soft touch ensures comfortable seating and a modern, stylish look. Thanks to the great flexibility of rope, various weaving techniques can be applied to powder-coated aluminum or galvanized steel, resulting in contemporary designs with character.

The rope used by Yoi consists of a strong nylon inner core with a weather-resistant olefin outer layer. This construction makes the material extremely suitable for all weather conditions. Rope is resistant to intense UV exposure, temperature fluctuations, moisture, mold, and chlorinated water. In addition, it is colorfast, PVC-free, easy to clean, and low-maintenance. Perfect for long-lasting, carefree outdoor living.

MAINTENANCE ADVICE

The rope can be cleaned with a plastic cleaner (no aggressive abrasives). After cleaning, the rope can be protected with a plastic protector. This helps prevent dirt deposits and keeps the rope easy to maintain. The furniture can remain outdoors during winter; however, using a breathable protective cover or storing it in a sheltered place is recommended to minimize dirt buildup. For the best results, Yoi offers dedicated care products specifically suitable for rope:

Yoi Multicleaner

Efficiently removes dirt from rope and other outdoor materials. It effortlessly restores the fresh look of the rope and prepares the surface for protection. For long-lasting results, apply Yoi Rope & Fabric Protector after cleaning.

Yoi Rope & Fabric Protector

A premium treatment that penetrates deep into the rope fibers, creating a water- and dirt-repellent layer. It protects against moisture, dirt, and stains. Regular use extends the rope's lifespan and maintains its fresh appearance and vibrant colors.

MATERIALS & MAINTENANCE

ALUMINIUM

Yoi's aluminum frame is finished with a high-quality powder coating, applied using an electrostatic spray process. The entire frame is then cured in an oven at approximately 180°C, ensuring a strong, durable, and uniform finish.

This protective coating is designed to last for years and withstand intense UV exposure, varying temperatures, and other challenging outdoor conditions. This allows the aluminum to retain its quality and appearance, season after season.

MAINTENANCE ADVICE

The aluminium can be cleaned with an aluminium cleaner (no aggressive abrasives). To prevent dried-up lime spots on the surface, we recommend applying an aluminium protector after cleaning. The furniture can remain outdoors during winter; however, using a breathable protective cover or storing it in a sheltered place helps prevent dirt deposits and keeps the frame looking its best.

For optimal maintenance, Yoi offers the following suitable care products:

Yoi Multicleaner

Efficiently removes dirt from outdoor materials such as teak, rope, textilene, aluminium, and synthetic fibers. It effortlessly restores the fresh appearance of your garden furniture. For long-lasting protection, apply a suitable protective coating after cleaning, such as Yoi Rope & Fabric Protector or Yoi Teak Shield, depending on the material.

Yoi Aluminium & Textilene Protector

A maintenance product that protects aluminium frames and textilene fabrics with a transparent, UV-resistant layer. It repels dirt, preserves color, and helps prevent weathering. Regular use extends the life of your furniture and keeps it looking like new.

MATERIALS & MAINTENANCE

ALUMINIUM/TEAK

The teak wood used by Yoi is carefully selected from certified sources and is known for its natural strength and warm appearance. Teak requires little maintenance: apart from periodic cleaning, no additional treatment is necessary. When the wood is used untreated outdoors, it will gradually change color from its original shade to a soft, silver-gray patina, a natural and desirable aging process.

Each teak panel has its own unique grain and character. Small fillers can be used to smooth out minor natural imperfections. Because teak is a natural product, hairline cracks may appear in the end grain of legs or table tops, for example. This is due to changes in temperature and humidity and does not affect the functionality or durability of the furniture.

MAINTENANCE ADVICE

The teak used in the furniture is almost maintenance-free. To prevent food and drink stains, we recommend applying a teak shield. Teak can be easily cleaned with a teak cleaner. This type of wood has a naturally high oil content and a fine grain structure, making it highly suitable for outdoor use.

Small shrinkage cracks are a normal characteristic of teak and cannot be avoided. They occur due to fluctuations in temperature and humidity and do not affect the strength or longevity of the furniture. The furniture can remain outdoors during winter; however, using a breathable protective cover or storing it in a sheltered place helps prevent dirt deposits. Always ensure there is space between the cover and the furniture to allow airflow.

For the best care results, Yoi offers dedicated maintenance products:

Yoi Multicleaner

Efficiently removes dirt from various outdoor materials such as teak, rope, textile, aluminium, and synthetic fibers. It effortlessly restores the fresh look of your garden furniture. For long-lasting protection, apply a suitable protective coating after cleaning, such as Yoi Teak Shield or Yoi Rope & Fabric Protector, depending on the material.

Yoi Teak Shield

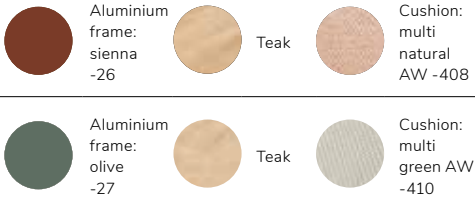

A high-quality protector for teak that penetrates deep into the wood, providing protection against moisture, cracking, and sunlight. Regular use preserves the warm teak color and ensures long-lasting durability.

TABLES

SHAPES AND MATERIALS

SHAPES, MATERIALS & ENDLESS POSSIBILITIES

YOI's table collections form the heart of any outdoor space. The extensive new collection includes models made entirely of teak, entirely of aluminum, and stylish combinations of aluminum with teak or travertine. With a range of heights, including dining, low dining, high dining, coffee tables, and side tables, Yoi offers the perfect solution for every setting.

The choice of designs is also particularly extensive: from Danish oval and teardrop to round, square, rectangular, and even an extendable table for those seeking maximum flexibility. The variety in style, size, and material makes Yoi's table series one of the most versatile in the outdoor world.

LOUNGERS

YOI introduces a contemporary collection of loungers that bring comfort, tranquility, and refined design to any outdoor space. YOI loungers are made from high-quality aluminum or a combination of aluminum and textilene. These materials are lightweight, weather-resistant, and easy to maintain.

Whether you want to relax by the pool, sunbathe on the terrace, or unwind in the garden, YOI offers loungers that invite you to relax. The designs are modern and friendly in shape, with adjustable backrests that ensure a comfortable position at any time of the day.

Thanks to their lightweight construction, the loungers are easy to move around, so you can always create the ideal spot, whether in the sun or in the shade.

Discover YOI's loungers and give your outdoor space a relaxed, harmonious look. The collection combines design, comfort, and durability and is the perfect addition to any modern outdoor setting.

MAINTENANCE ADVICE

MAINTENANCE multi cleaner YOI10

Efficiently removes dirt from various outdoor materials such as teak, rope, textilene, aluminum, and synthetic fibers, effortlessly restoring the fresh look of your garden furniture. For long-lasting protection, use a suitable protective coating such as Yoi Teak Shield or Yoi Rope & Fabric Protector after cleaning. £24.95

MAINTENANCE teak shield YOI20

A high-quality protector for teak that penetrates deep into the wood to protect it from moisture, cracking, and sunlight. Regular use preserves the warm teak color and ensures long-lasting durability. £29.95

MAINTENANCE rope/fabric protector YOI30

Premium treatment for rope and outdoor fabrics penetrates deep into the fibers and creates a water- and dirt-repellent layer that protects against moisture, dirt, and stains. Regular use extends the life of the fabric and preserves its fresh appearance and vibrant colors. £29.95

MAINTENANCE aluminium/textilene protector YOI40

A maintenance product that protects aluminum frames and textilene fabrics with a transparent, UV-resistant layer that repels dirt and preserves color. Regular use extends the life of your furniture and keeps it looking like new. £29.95

MAINTENANCE HPL protector YOI50

A high-quality treatment that protects HPL surfaces from water, dirt, stains, and color fading thanks to an invisible nanotechnology coating. It keeps your furniture looking like new for longer and is applied twice a year. £29.95
