

MAX&LUUK

PARASOLS | OUTDOOR FURNITURE

MAX & LUUK

Max & Luuk (2013) is a brand of Borek Parasols | Outdoor Furniture (1977), alongside YOI Outdoor Furniture (2019). Max & Luuk is a youthful and innovative brand that takes its name from my sons, and is distinguished by exquisite materials, enticing designs, and ultimate comfort. Since 1977, the family-owned business Borek has evolved into a leading brand both domestically and internationally.

The 2026 collection builds on this heritage with designs that feel sculptural, tactile and effortlessly serene. Echoing the shift toward organic forms in outdoor living, soft curves, warm bronze tones and the natural depth of teak come together in furniture that feels both modern and grounded.

New statement pieces take center stage. The Ferrara picnic table, crafted as one continuous silhouette in bronze aluminium with beautifully detailed teak, introduces a refined solidity. Matera follows this sculptural approach with dining and high dining chairs shaped as a single flowing line, bringing a mediterranean lightness to outdoor settings. Agulo and Murano add a more understated contour, with Murano offering deep low dining cushions and a distinctive curved sofa element that enhances comfort and atmosphere.

Signature designs return in new proportions and finishes, including the aluminium and rope Emilia stacking lounge chair, the Palma tables now in a three-meter version and the Salerno series in ceramic for low, dining and high dining layouts. A highlight of the collection is the Rimini modular lounge, created with Dutch designer Monique des Bouvrie. Her architectural calm and characteristic softness are reflected in the rounded teak modules and upholstered all weather backrests.

The Venezia tables complete the organic narrative with round dining and low dining models and expressive kidney shaped designs, all supported by sculptural columns with subtle relief. This same language continues in the new Viola side and coffee tables.

With the 2026 collection, Max & Luuk continues to explore the balance between natural materials, thoughtful proportions and a quiet elegance. We invite you to create an outdoor space that feels personal, warm and effortlessly stylish.

Frank Bogaers

A handwritten signature in black ink, appearing to read 'Frank Bogaers', with a stylized flourish at the end.

MKS210	decorative cushions	50x35cm	gaillette reseda	£139.

SUNBRELLA®

All Sunbrella® cushions & pouffes are made to measure to provide extra comfort and the fabric is a washable Sunbrella® polyacrylate. Sunbrella is dyed completely, is UV-resistant, colourfast, water and dirt repellent, antifungal and is able to withstand water from swimming pools and seawater.

In the price catalog you can see which cushions are standard available for each product. Other Sunbrella® colours are available to order for a surcharge.

MAINTENANCE ADVICE: we advise using Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Fabric Protector.

COLOUR OVERVIEW & PRICELIST

CERVO & PRATO (DECORATIVE) CUSHIONS & POUFFES

(DECORATIVE) CUSHIONS PRATO

Prato is a textured linen look outdoor fabric with a soft touch. The polypropylene material is resistant to fungus and bacteria. It is very high UV-resistant and has excellent light fastness. Prato is non-absorbent and withstands water from swimming pools and seawater.

ALL WEATHER

All the fabrics used by MAX&LUUK for all weather cushions are particularly suitable for outdoor use. These fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed especially for MAX&LUUK.

The following lounge collections are delivered with all-weather cushions as standard:

Aguilo/Alba/Alice/Avellino/Brain/Chase/Duke/Emilia/Ferrara/Fiore/Gray/Glenn/Jane/Jago/Jaxx/Liam/Lorenza/Luke/Mason/Matera/Mick/Murano/Mylo/Orvieto/Rik/Rider/Rimini/Toya/Tyler/Valente/West. All other cushions are also available in all-weather fabric for a surcharge.

MAINTENANCE ADVICE

We advise using Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Fabric Protector.

(DECORATIVE) CUSHIONS CERVO

Cervo feels soft and has a lot of texture, which is why the fabric gives the outdoor furniture an extra luxurious look. Thanks to the special treatment, the material is water and dirt repellent.

MATERIALS & MAINTENANCE

ROPE & BELT

ROPE & BELT

Ropes and belts are durable, innovative and strong materials to use for the weaving of outdoor furniture. It is stylish, unique and has a soft touch, creating comfortable seating and stunning looks. The versatility of this material in combination with various weaving techniques applied on powder coated aluminum- and galvanised steel results in exciting and contemporary designs. Rope and belt are made of thermoplastic polypropylene fibres and has been developed to meet all requirements for outdoor furniture. It is engineered to endure extreme outdoor conditions such as sunlight UV exposure, temperatures variances, mold and mildew. Rope is resistant to moisture, is colourfast, does not contain PVC, is washable and requires little maintenance.

MAINTENANCE ADVICE

Easy to clean with Fabric Cleaner. After cleaning it is possible to further protect the material with Fabric Protector. Never use a high pressure cleaner.

MATERIALS & MAINTENANCE

FIBRE/FIBERGLASS

FIBRE

MAX&LUUK fibre is a polyethylene synthetic wicker that has been developed to meet all standard specifications for outdoor furniture. The fibre is fabricated to endure rigorous outdoor conditions such as sunlight UV exposure, extreme temperatures variances, mold and mildew. It is resistant to moisture, sea water and chlorinated water.

MAINTENANCE ADVICE

Easy to clean with Multi Cleaner. A soft nylon brush or a low pressure air hose can also be used to clean between the weaving.

FIBERGLASS

Fiberglass is a composite material. Fiberglass mats are combined with resin and the products are shaped by hand in a 3D mold. It takes several days to finish a product. The combination of strength and low weight makes fiberglass an excellent material to make unique and complex shapes. Fiberglass is a weather resistant material.

MAINTENANCE ADVICE

Easy to clean with Multi Cleaner.

MATERIALS & MAINTENANCE

CEMENT

CEMENT

Glass Reinforced Cement (GRC), also known as Glass Fiber Reinforced Concrete (GFRC), is a brand new material within the Max & Luuk collection. This innovative composite material consists of cement, fine aggregates, water and alkali-resistant (AR) glass fibers. Thanks to the glass fibers, the material is exceptionally strong, durable and tear resistant.

With GRC, we expand our collection with a material that is not only versatile, but also perfectly suited to the high demands of outdoor use. The material offers a sleek, modern look while being weather-resistant and easy to maintain.

MAINTENANCE ADVICE

We recommend regular maintenance of your table to maintain its longevity and appearance. Use water and a soft brush or sponge to remove dirt and dust. Mild soap or detergents are appropriate, but avoid harsh chemicals to avoid damaging the protective finish.

To keep your table in optimal condition, we recommend storing it in a covered area, such as a shed or garage, during the winter or protecting it with a protective cover.

MATERIALS & MAINTENANCE

TEAK

TEAK

The teak of MAX&LUUK is a special selection of certified sourced teak from West Java and Sumatra. Teak furniture does not require any special maintenance routine or any additional protection apart from occasional cleaning. Left to age naturally outside, teak will gradually change from its original colour to a soft, silver-grey as the pigments in the surface layer of the wood begin to fade away. Every piece of teak has its own character and structure. Small inlays can be used to fill up minor existing imperfections. Teak is a natural material and cracks in the end grain of components, for example legs and laminated tops, may appear due to changes in temperature and humidity and the consequent change in moisture content of the wood. This is normal, especially in heavier components and it will not affect the serviceability of your furniture. Tables/benches 220cm or longer may begin to sag.

MAINTENANCE ADVICE

We recommend that you allow your teak furniture to weather naturally this way and simply clean thoroughly three or four times a year with Teak Cleaner to remove accumulated dirt. Teak is a natural product and is not treated against stains. It will absorb liquids if not sealed (leaves, food, olive oil, drinks etcetera). To protect teak against stains we recommend Teak Protector. Under no circumstances should a power washer be used to clean your product. Treating with teak oil or other preservatives is not necessary; it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture. If you intend to store your furniture over the winter, we recommend that you do so in a watertight garden shed or garage. However, we advise that you do not move teak furniture from the garden straight into a heated indoor room for storage, as the sharp differences in temperature and humidity may cause the wood to split.

MATERIALS & MAINTENANCE

ALUMINIUM

POWDER COATED ALUMINIUM

Fluidized powder coating applied to the aluminium structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. The material is fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE

Easy to clean with Multi Cleaner.
